### What does it do?

No one likes bad breath, or halitosis. Bad breath odor is embarrassing and affects personal, social, and business relationships. If you have taken proper oral hygiene like brushing or flossing their teeth and have avoided taking odor-producing food like garlic or onions but still exhale unpleasant mouth odor, then it may be time for you to consider bad breath remedies based on traditional Chinese medicine (TCM).

In TCM, bad breath is often caused by the heat or fire in the stomach. In such cases, you may feel hot sensation in the stomach and mouth, thirst, food retention, and constipation. Additionally, you may develop toothache, mouth ulcer or gingival ulcer. To eliminate bad breath, it is therefore necessary to clear the stomach heat and further nourish Yin energy.
